Stay safe on Fraser Island

Fraser Island is an international tourist destination that attracts approximately 400,000 visitors a year. It is a popular holiday destination for families, fishing enthusiasts and backpackers. The island boasts unique natural features and is home to an array of native wildlife and vegetation, including native wild dingoes. To protect the natural ecosystem and enjoy Fraser Island safely, you have a responsibility to stay dingo-safe at all times.

Managing dingoes

Fraser Island's dingoes are wild, unpredictable animals—they should not be confused with domestic pets. These natural predators play a vital role in the island's ecosystem and when people feed or interfere with them this balance is upset. It can also lead to dingoes becoming less wary and behaving dangerously towards people—behaviour which, at its worst, sadly means they may have to be humanely euthanised to avoid the risk of people being injured or killed.

When you're being dingo-safe, you're protecting both dingoes **and** people.

The Queensland Government uses the Fraser Island Dingo Conservation and Risk Management Strategy as a framework for coordinating and informing management approaches. The vision of the strategy is to ensure all visitors to Fraser Island have a safe and enjoyable stay, while protecting dingoes in an environment as near as possible to their natural habitat.

Be dingo-safe:

- ☑ keep the kids close and stay in a group
- ☑ avoid feeding dingoes
- ☑ keep your camp site clean
- ☑ secure your food, bait and rubbish
- ☑ never approach a dingo
- ☑ never encourage any interaction with a dingo
- ☑ know what to do if a dingo approaches.

If a dingo approaches you:

- stand still at your full height and fold your arms across your chest
- face the dingo, then calmly back away
- if you are with another person, stand back to back
- confidently call for help
- wait until the dingo or dingoes are gone before you continue on your way
- do not run or wave your arms.

Generally dingoes go about their lives and stay clear of people. From time to time, they may come close, so it's important to know what to do. **Stay alert and stay calm**.

Never feed dingoes

It is illegal to feed or interfere with dingoes or other wildlife. Heavy penalties apply.

Report incidents

The Queensland Government takes your safety seriously and has rangers monitoring dingoes all year 'round. Please report any dingo incidents to a ranger, or phone 13 QGOV (13 74 68). Mobile phone charges apply. Reporting dingo incidents helps inform proactive management to better protect people and dingoes. For all emergencies, phone Triple Zero (000) or try 112 from a mobile phone if you have no reception.

#30338

Great state. Great opportunity.
