HOME

Be a winner! Recycling is easy.

Follow these top 5 tips to recycle more items at home.

1. Think before you buy—purchase supermarket goods that can be recycled easily at home like glass jars, tin cans, plastic soft drink and milk bottles and newspapers.
2. Recycle kitchen and garden scraps, which can make up almost 50 per cent of garbage, as compost.
3. Make collecting your recyclables at home easy by placing a bin for recyclables in your kitchen, bathroom and laundry.
4. Carry lunches in a reusable container, rather than disposable wrappings
5. Donate unwanted clothing, furniture and white goods to charities or op shops.

Presently, 77% of newspapers and 18% of plastic packaging are recycled in Queensland.

We can do even better!
